

## Abet Engraving Laminate.

Rigid Laminate, Abet, Traff, Eurosign, Phenolic, Traffolyte, Formica Engraving Material

Traffolyte Engraving Laminates used for clean line, easy-to-read, minimum maintenance interior signs with applications ranging from Identification and Warning signs and industrial and commercial complexes, to Directory Slats and valve tags.....

Traffolyte is available in a sheet size of 1220 x 610mm in a thickness of 1.5mm or 3mm . This material is immune to solvents and is heat resistant, finishes are excellent and the silver is a great substitute for anodised aluminium and the gold for brush finish brass It is a phenolic resin sandwich type material and comes in most colours.
